EASA Part 145 Repair

We have approvals in multiple maintenance organisation class ratings covering a wide range of aircraft repairs with an efficient turnaround schedule

C1 Aircon – Press

Metal and composite repairs to ducts and other components.

C4 Doors—Hatches

We provide repair capability for multiple aircraft types, including; Passenger, cargo and under-carriage doors; and fuselage access hatches.

C6 Equipment

Repairs to Seat Assy's, interior equipment including cargo floor restraints and Lock Assy's.

C7 Engines-APU

Cowling composite repairs carried out with in-house expertise.

C8 Flight Controls

Composite and metal repairs to Ailerons, Elevators, Rudders, Stabilisers, Spring and Trim Tabs.

C14 Landing Gear

U/C components, doors and other structural components.

C16 Propellers

We provide spinners and various component metal & composite repairs.

C18 Protection Ice/Rain/Fire

Leading edge de-ice boot replacement; complimented by Leading Edge repairs undertaken as part of the C20 approvals.

C20 Structural Parts

Wing, Nacelle and Fuselage structural component repairs carried out with in-house expertise to undertake composite and metal work.

System / Modification Installation

We can provide a team of experienced engineers to install a new system or modification at your designated maintenance facility. A dedicated team is efficient in terms of time and resource.
